EDUCATION

Indira Gandhi Delhi Technical University for Women (IGDTUW) 2023 – 2027
B.Tech in Electronics and Communication Engineering, specializing in Artificial Intelligence CGPA: 8.61

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS
AI & ML: Machine Learning, Large Language Models (LLM), Generative AI, Prompt Engineering, Natural Language Processing
Frameworks & Tools: Flutter, Firebase, Node.js, Streamlit, Git, GitHub, MySQL, Android Studio, AWS, OpenCV
CS Fundamentals: Data Structures & Algorithms (DSA), OOP, DBMS

EXPERIENCE

Accenture Bengaluru, India
Associate Software Engineer Intern May 2026 – Jul 2026
– Engineered a Python-based QA automation system covering **16/16 validation checks across 11 brands**, reducing manual review of HTML banner creatives. Developed a multi-signal validation pipeline using **OpenCV, perceptual hashing, template matching, and shape IoU**, with a **LangChain agent and Streamlit UI** for automated test execution.

5GIF India Forum (COAI) Remote
Research Intern Jan 2026 – Mar 2026
– Analyzed LLM inference traffic patterns in 5G networks under COAI; captured packet-level data via Wireshark to study burst behavior, TTFT, and inter-packet delays across LLM, streaming, and federated learning traffic types.

Mutual Node Private Limited Gurugram, India
Mobile App Developer Intern Jun 2025 – Jul 2025
– Designed and launched the Santmarg mobile app on Google Play Store for a target audience of 50k+ users; implemented global audio playback, voice search, and Firebase-powered content listings.

PROJECTS

Santmarg Mobile App | Flutter, Dart, Firebase Firestore
– Created an Android app with persistent background audio, a personalized “Continue Listening” section, voice search (70%+ accuracy), and paginated content delivery; implemented Firebase Firestore for real-time synchronization and launched the app on Google Play Store.

ResumeIQ AI: AI Career Copilot | Python, Streamlit, Scikit-learn, Gemini API, SQLite, NLP
– Designed an AI career platform with an explainable ATS engine combining 4 weighted signals: skill match, TF-IDF similarity, experience fit, and section completeness; added keyword-gap analysis, comparison across 2–5 JDs, and company-fit insights for 15+ tech companies.

CyberSafe: Phishing Detection Engine | Python, Scikit-learn, Streamlit, Pandas
– Trained a phishing URL classifier using TF-IDF character n-grams and lexical feature extraction on 549k URLs with Linear SVC; deployed a Streamlit interface for real-time phishing detection.

ACHIEVEMENTS

- **Flipkart** (2025): Selected among Top 100 of 45,000+ for Flipkart Runway and National Semifinalist in Flipkart GRiD 7.0 (out of 160,000+ applicants).
- **WISE Scholarship** (2024): Selected for TalentSprint’s prestigious Women in Software Engineering (WISE) Program, ranking among the top 15,000+ applicants. Awarded an 80% merit-based scholarship for exceptional performance in the scholarship test.
- **InnoVortex Hackathon** (2023): Led team to rank among the top 15 out of 100+ teams in the InnoVortex Prototype Hackathon, where developed a travel itinerary system for India.

LEADERSHIP EXPERIENCE & CERTIFICATIONS

- **Deloitte Australia - Data Analytics** (2026): Forensic data analysis, Tableau dashboard development, and business insight reporting using Microsoft Excel.
- **Oracle OCI Generative AI** (2026): LLMs, Retrieval-Augmented Generation (RAG), Prompt Engineering, and Enterprise Generative AI Application Development.
- **Python & Machine Learning** – Anveshan Foundation, IGDTUW (2025): 6-week ML internship.
- **Minerva Outreachy**: Hosted and coordinated outreach events for 100+ students.
- **Google Developer Students Club**: Selected as mentee across App Development, AI/ML, AR/VR, Cloud and UI/UX.
- **Mentor - Summer Skill Sprint** (2025): Mentored 50+ students in DSA using Java.
- **Basics in Data Analytics** - LinkedIn Learning. (2024)
