EDUCATION

Indira Gandhi Delhi Technical University for Women (IGDTUW)	2023 – 2027
<i>B.Tech in Electronics and Communication Engineering, specializing in Artificial Intelligence</i>	<i>CGPA: 8.61</i>

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS
AI & ML: Machine Learning, Large Language Models (LLM), Generative AI, Prompt Engineering, Natural Language Processing
Frameworks & Tools: Flutter, Firebase, Node.js, Streamlit, Git, GitHub, MySQL, Android Studio, AWS, OpenCV
CS Fundamentals: Data Structures & Algorithms (DSA), OOP, DBMS

EXPERIENCE

Accenture	Bengaluru, India
<i>Associate Software Engineer Intern</i>	<i>May 2026 – Jul 2026</i>
– Engineered a QA automation agent to execute 15+ end-to-end quality checks on the Banner channel, reducing manual testing overhead. Designed intelligent test pipelines integrating LLM-driven decision logic to validate channel integrity and flag anomalies.	
5GIF India Forum (COAI)	Remote
<i>Research Intern</i>	<i>Jan 2026 – Mar 2026</i>
– Analyzed LLM inference traffic patterns in 5G networks under COAI; captured packet-level data via Wireshark to study burst behavior, TTFT, and inter-packet delays across LLM, streaming, and federated learning traffic types.	
Mutual Node Private Limited	Gurugram, India
<i>Mobile App Developer Intern</i>	<i>Jun 2025 – Jul 2025</i>
– Independently built and deployed the Santmarg app to Google Play Store , targeting 50k+ users; implemented global audio playback, voice search, and dynamic Firebase-powered listings end-to-end.	

PROJECTS

Santmarg Mobile App | *Flutter, Dart, Firebase Firestore*

- Built an Android app with persistent background audio, personalized “Continue Listening” section, voice search (70%+ accuracy), and paginated content delivery; integrated Firebase Firestore for real-time sync and launched on Google Play Store.

CyberSafe: Phishing Detection Engine | *Python, Scikit-learn, Streamlit, Pandas*

- Implemented a ML-based phishing URL classifier using TF-IDF character n-grams and lexical feature extraction; trained Linear SVC on 549k URLs, and integrated with a Streamlit web interface for real-time phishing detection

AI Doubt Solver (LLM-based Chatbot) | *JavaScript, Node.js, Express, Ollama (LLM), HTML, CSS*

- Developed a full-stack AI-powered chatbot using the phi3:mini LLM via Ollama for academic query resolution, implementing session-based context management and multi-turn conversation handling with optimized response generation.

ACHIEVEMENTS

- **Flipkart** (2025): Selected among Top 100 of 45,000+ for Flipkart Runway and National Semifinalist in Flipkart GRiD 7.0 (out of 160,000+ applicants).
- **WISE Scholarship** (2024): Selected for TalentSprint’s prestigious Women in Software Engineering (WISE) Program, ranking among the top 15,000+ applicants. Awarded an 80% merit-based scholarship for exceptional performance in the scholarship test.
- **InnoVortex Hackathon** (2023): Led team to rank among the top 15 out of 100+ teams in the InnoVortex Prototype Hackathon, where developed a travel itinerary system for India.

LEADERSHIP EXPERIENCE & CERTIFICATIONS

- **Deloitte Australia - Data Analytics** (2026): Forensic data analysis, Tableau dashboard development, and business insight reporting using Microsoft Excel.
- **Oracle OCI Generative AI** (2026): LLMs, Retrieval-Augmented Generation (RAG), Prompt Engineering, and Enterprise Generative AI Application Development.
- **Python & Machine Learning** – Anveshan Foundation, IGDTUW (2025): 6-week ML internship
- **Minerva Outreachy**: Hosted and coordinated outreach events for 100+ students.
- **Google Developer Students Club**: Selected as mentee across App Development, AI/ML, AR/VR, Cloud and UI/UX.
- **Mentor - Summer Skill Sprint** (2025): Mentored 50+ students in DSA using Java.
- **Basics in Data Analytics** - LinkedIn Learning. (2024)
